

FALL HOUR OF CHESS

NOV. 4TH - 8TH

“WHILE ALL ARTISTS ARE NOT CHESS PLAYERS,
ALL CHESS PLAYERS ARE ARTISTS.”

—MARCEL DUCHAMP

DIRECTIONS:

During your selected hour, elementary students are to use **Clever** to access **Chesskid**. They then choose to play a new game and select "Fast." This will pair them up with another MCS student that is online at the same time and close to the same rank.

Students are NOT to log in to Virtual on regular machines or iPads. Only use Virtual on a Zero Client or Thin Client laptops.

If your students are brand new to chess. Have them log on a few days early and click on "lessons." It will walk them through, starting with an awesome introductory video.

Structure your hour any way you please... rotate them through a center, grab a class set of laptops, or pass a device on when a student is done playing. It's up to you!
