

Sustained Tutoring Program 2021-2022 School Year

Elementary, K - 5

- Provide a sustained after school tutoring program to address gaps in student learning in reading and math, students are selected based on highest academic need
 - This would be in addition to any tutoring or other services provided during the regular school day
- Focus on gaps in learning as they pertain to the critical standards for each grade level / content area
 - Two day a week (for both reading and math)
 - 1 hour a day
 - Provide snack and bus transportation

Middle & High School, 6-12

- Provide a sustained after school tutoring program to address gaps in student learning
 - This would be in addition to any tutoring, skills labs, or other services provided during the regular school day
- Homework Support / Tutoring
 - Focus on supporting gaps in learning within the courses students are currently taking
 - Two hour virtual sessions two nights a week for Math and English
