About Yearbook Class

Staff members can expect to be responsible for the following:

- Plan each page, including headlines and other graphic elements.
- Write a story and use photos to help tell the story of the year, which are also appropriate for the theme.
- Edit copy, captions, headlines and other page elements. Check names for spelling accuracy.
- Be responsible for deadlines that correspond with their assignment.
- Oversee production of pages and meet deadlines with accuracy.
- Attend before or after school events as a photographer/reporter.

Much of the time spent in class is working independently to complete an assigned task, whether it is researching a topic, composing interview questions, writing a story or designing a page. As a result, students must be self-motivated to complete their assignments on or before the deadline. Although the editors and I are always available to help, we won't be standing by to watch over your student. Please remind your student that Yearbook is a unique opportunity and with it comes extra responsibilities to which they will be held accountable.
