

When you subtract all you have, it equals 0.

$$0-0=0$$

$$1-1=0$$

$$2-2=0$$

$$3-3=0$$

$$4-4=0$$

$$5-5=0$$

When you subtract 0, nothing changes.

$$0-0=0$$

$$1-0=1$$

$$2-0=2$$

$$3-0=3$$

$$4-0=4$$

$$5-0=5$$

When you subtract 1, you have one fewer.

$$1-1=0$$

$$2-1=1$$

$$3-1=2$$

$$4-1=3$$

$$5-1=4$$

When you subtract numbers that are next door neighbors, it equals 1.

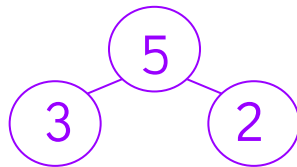

$$2-1=1$$

$$3-2=1$$

$$4-3=1$$

$$5-4=1$$

Think about your partner numbers:

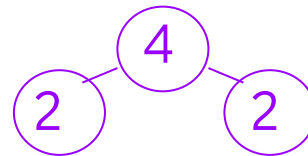

$$3+2=5$$

$$5-2=3$$

$$2+3=5$$

$$5-3=2$$

$$2+2=4$$

$$4-2=2$$
