Math: Big Ideas Chapter 10

The students will:

- count by ones and tens using a hundreds chart.
- tell a missing number.
- count on from a given number by ones.
- count by tens and then count on by ones.

Important Information

Please talk with your child about keeping their mask over their nose and mouth. The amount of reminders that have been given since we returned from Christmas break has increased quite a bit. Thank you for sending your child in a mask that fits his/her face and keeping extras in their backpacks. It would be helpful for you to review proper handwashing procedures at home. Also, please reiterate the need to cover coughs and sneezes with our elbows.
