Phonics: Review u, g, w, v, x, j, qu, and z

Sight Word: your, all

Vocabulary Words: distance, recognize, surface, challenge, space

Comprehension: Making predictions within a text/story.

Math:

Big Ideas Chapter 13

This week, the students will learn how to compare the weight of objects. When we compare weight, we use the words: heavier and lighter. For example, the box of markers is heavier than the pencil. The pencil is lighter than the box of markers. We will also continue to practice comparing height and length. Keep practicing at home too.

Height = taller/shorter

Length = longer/shorter

Weight = heavier/lighter

Important Information

Report cards come home Friday, March 25th. Please make note of the Power Standards your child needs continued support to master. Continued daily practice of reading, sight words and math facts will help your child be successful at mastering these standards. As mentioned at Parent Night, at this point in the school year, all Power Standards have already been taught extensively during classroom instruction. We will continue to review these standards, however, if your child has a 1 or a 2 on these standards they **really** need your extra help at home. Thank you for your support at home!
