- Use matching to compare the number of objects in two groups
- Use counting to compare the number of objects in two groups
- Compare two written numerals

Important Information

Please continue to have your child practice opening the items that are sent for lunch (lunchables, applesauce, juice boxes, fruit cups, cheese sticks, etc.) We are working to have your child do these things independently.

Also, **ALL** students must know their lunch number. This is the number used to check out library books. It is very important to be practicing this skill at home. Thank you!
